ABOUT THE STATE. Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, tho brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Fow young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its

Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorile Prescription. It makes weak women strong and sick women well. For nursing mothers or for those brokendown in health by too frequent bearing of children, also for the expectant mothers to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Pavorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nervine nicely adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar allments.

LIQUOR LAWS IN NORWAY Private . Profit . Eliminated - Consumption of Alcohl Decreased

New Norwegian liquor laws are suc-cessful. The Sondag system gives power to municipalities to grant all the rétail spirit licenses which they deem necessary to a company which would hind itself to carry on the traffic in the interests of the community, with a fixed annual return of not more than 5 per cent

on its paid up capital.

In establishing the system the question of compensation does not appear to have presented much difficulty. The allotments of the profits are as follows: To the State, 65 per cent; to the muni-cipality, in lieu of larger license duties, cipality, in lieu of larger license duties, now abolished. 15 per cent, and to objects of public utility operating as counter attractions to the public houses intowns, 10 per sent, and in the sur-

rounding districts 10 per cent.

The profits of the trade under these restrictions have contributed \$7,000,000 for objects of public interest since the founding of the system. During the last eight years the proportion accruing to the State has been increased and set apart till 1910 to form the nucleus of an old age pension fund, which now amounts to \$2,300,000.
